

OIL AND GAS INDUSTRY

The oil industry is one of the most important drivers for the world economy. The ever-increasing demand for this resource has prompted the need for more technologically-advanced methods for exploration, drilling and operation of oil fields.

PRODUCT RANGE

VISCOSIFIERS

- Bentonite
- Colloidal Silica
- Organo Clays
- Cellulose
- Gums
- Polymeric Types

LUBRICANTS

- Oil
- Esters-type

BIOCIDES

- Preservatives

EMULSIFIERS

- Amines
- Amides
- Organic Acids
- Ethoxylates

SURFACTANT

- Foaming/De-foaming Agents
- Wetting Agents
- Dispersants

BRINES

- Sodium Formates
- Calcium Formates
- Other Formates

PH CONTROL

- Potassium Hydroxides
- Sodium Hydroxides
- Hydrated Lime

FLUIDITY

- Polymeric Types
- Sulphonates

SCALE INHIBITORS

- Proprietary (formulated without environmentally harmful chemicals)

WEIGHTING AGENTS

- Barite
- Calcium Carbonates
- Silicates
